DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1-12 in the reply filed on 06/16/05 is acknowledged.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Miles et al. (US publication 2001/0038138).

With respect to claim 1, Miles et al. teach a semiconductor device comprising (see figs. 1-4 and associated text):

a circuit or device region 2,5 disposed on a semiconductor substrate 20;

a first guard ring 6 disposed in surrounding relation to said circuit region;

a second guard ring 8 disposed between said circuit region and said first guard ring in surrounding relation to said circuit region; and

connections connecting said first guard ring and said second guard ring to each other and dividing an area sandwiched between said first and second guard rings into a plurality of subareas.

Further with respect to claim 1, since Miles et al. teach the device as claimed, the first guard ring would inherently prevent water from entering said circuit region.

With respect to claim 2, Miles et al. further teach the circuit region has a corner, and the connections connect a corner of the second guard ring which corresponds to the corner of the circuit region to the first guard ring.

Allowable Subject Matter

3. Claims 3-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Long Pham whose telephone number is 571-272-1714. The examiner can normally be reached on M-F, 7:30AM-3:00PM.
